

Governance, risk and compliance solutions

Supporting you throughout your GRC journey

www.obséy.com

Governance, risk and compliance is high on the agenda

We understand the pressures you are feeling

Customers

Push their responsibilities and commitments down the supply chain

Shareholders

Seek protection from unexpected loss

The Board

Wants assurance that it's protected from liability

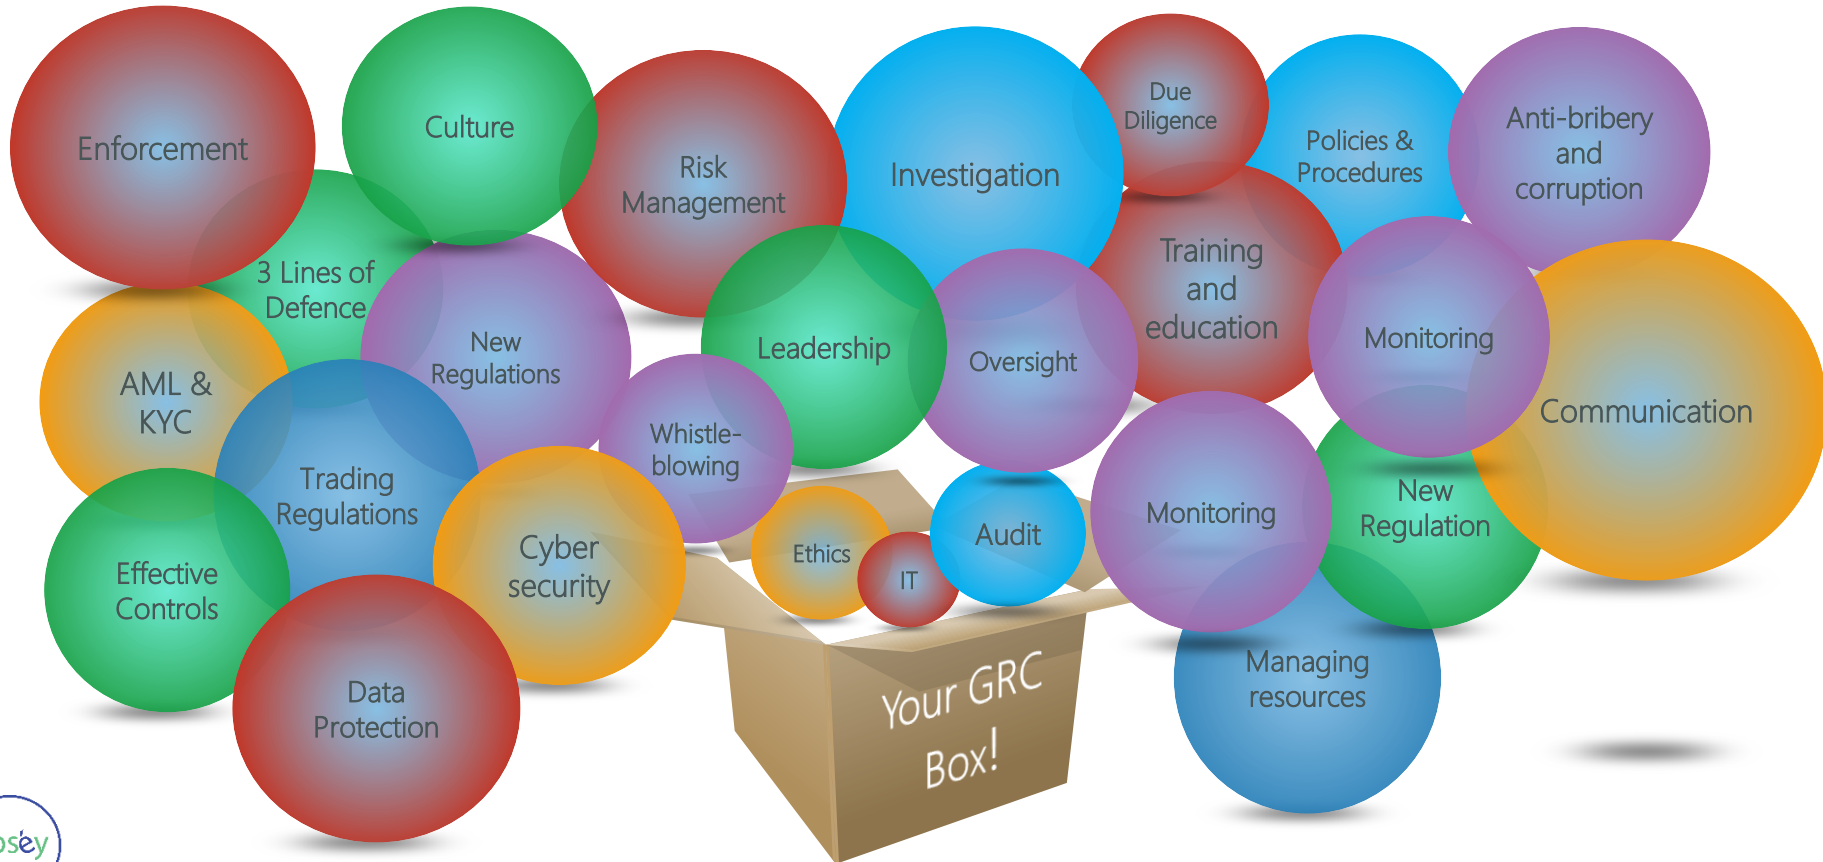

Regulators

Have to demonstrate their regulatory and enforcement activities are working

Yet, effective GRC is proven to add value to your business

Like you, our clients face many GRC challenges

Obséy has a complete solution...

Practical

Putting your needs at the heart of solutions designed for you

Realistic

Taking a proportionate, risk-based approach

Holistic

Supporting you through every stage of your GRC journey

Affordable

Adding value through our comprehensive services and realistic fees

This is why Obséy is different

Your needs at the heart of everything we do

Full suite of solutions from consulting and resourcing, to technology

Supporting you at every stage of your GRC journey

Listening to your needs, establishing your requirements, taking a proportionate, risk based approach

Governance, risk and compliance is what we do

We don't do anything else. Our services are always delivered by experienced experts and our technology is designed by us

We add value to your business

Providing a unique service and charging realistic fees

You have our ear

Have a need but not sure where you are?

Our *CHeck* and *INsight* assessment is a simple and low cost way of understanding your current state and establishing a road-map for improvement

Problems or challenges?

Let us listen to where your problems and challenges are and suggest how we can help you overcome them

Need support for your objectives?

Tell us where you need help delivering specific objectives, and we will design and deliver solutions for you
